Subject: Save the Ridge Now!

**\*\*External Sender. Use caution before opening links or attachments\*\***

City Clerk Alice Evenson,

Please protect Pittsburg's hills, the ridge between Pittsburg and Concord, and the neighboring Thurgood Marshall Regional Park. Open space, habitat for wildlife, and the community's scenic views are incredibly important, and Pittsburg's residents deserve access to nature.

Seeno/Discovery Builders and the City of Pittsburg are trying to jam a bad project through without people knowing.

Even though changes to Faria's environmental review were legally required, the City of Pittsburg and Seeno are trying to rush through a new document that doesn't give the public time to review it and doesn't require a response to comments.

That's not right—the public deserves an answer, especially because the Faria project and its environmental review were so deficient that the project needed to be overturned.

There's still no site plan, just a blob showing where the project would be without any detail. The project's footprint remains unchanged—it's still threatening Thurgood Marshall Regional Park next door and destroying Pittsburg's ridge.

Hundreds of previous comments from Pittsburg residents and agencies such as LAFCO opposing the project have been ignored.

Faria in its current form breaks Pittsburg's own General Plan. Requirements that development in the hills be sensitive to natural terrain are gutted.

Carbon pollution that contributes to disastrous global warming would be a significant and unavoidable impact of this project. Development should be moved off the ridge and closer to existing services to reduce carbon pollution.

Nearly 13,000 daily car trips would be generated by this project. Why does Pittsburg want housing so far away from the city center so that anything and everything requires a car to do?

The Pittsburg City Council needs to do what other communities in the Bay Area have already done: treat their hills as a public good to be protected rather than something to be flattened and paved over.

Please change the project so that the ridge is saved.

Pittsburg residents deserve to have their hills protected, like so many other Bay Area communities already do. And they deserve the same access to Thurgood Marshall Regional Park that Concord residents have.

Kathleen Johnson

Pittsburg needs to repair the city streets before building any new houses. In my neighborhood the streets are in bad shape because of substandard installation and my house is 4" out of level from end to end. The housing track was built by seeno if they would come back to fix my problems I would appreciate it
